

SOCIAL SKILLS DEVELOPMENTAL PLAY GROUP

Occupational Therapist and Speech-Language Pathologist instructed Developmental Group designed to enhance your child's social language and play skills with peers.

Children will receive enriching and developmentally appropriate activities, in our pediatric sensory gym, to promote social language and play skills in a supportive environment that is fun! We will address communication, motor skills, and sensory integration during each session. During the last 15 minutes of each session, one therapist will meet with caregivers to discuss targeted goals of the day, general progress, and carryover activities for home.
